

GENDER PAY GAP REPORT

WISE Academies are an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.

This involves carrying out six calculations that show the difference between the average earnings of men and women in our organisation but does not involve publishing individual employee data.

The overall gender pay gap is defined as the difference between the mean (average) or median (actual midpoint) hourly rate of pay of male and female employees.

The results of these statutory calculations are:

Supporting narrative

WISE Academies is committed to the promotion of equality of opportunity and choice for employees and supports the fair treatment of all staff irrespective of gender through our transparent recruitment processes, pay policy and professional development.

We are confident the Trust's gender pay gap is not a pay issue, as our approach to pay is gender neutral and we have in place job evaluation structures to ensure there is pay parity across the trust.

WISE Academies adopt pay scales based on the School Teachers Pay and Conditions Document and for support staff we use pay scales set by the NJC pay scales. Both teaching and support staff posts are aligned to nationally agreed pay scales and our male and female staff are paid within the same pay band for the same job role.

The gender pay gap is a high level, non-adjusted indicator of male and female earnings which is affected by workforce distribution and workforce make-up. The majority of workforce is predominantly female therefore; the gap between the 'average' female hourly rate of pay and the 'average' male hourly rate of pay is significantly affected.

It should also be noted that in September 2018, a large number of schools were TUPE transferred into the organisation.
